

zero-e Charity Bike Ride : Sunday 18th July 2010
in support of Teenage Cancer Trust

THE ROUTE

THE TEAM

ZERO-e Bike ride.

Sunday was a great success with around 20 riders setting off in slightly damp conditions on our second annual zero-e bike ride.

Riders were friends and colleagues all committed to raising money for our nominated charity of the Teenage Cancer Trust and to enjoy a challenging day out.

Once into the ride and distancing ourselves from urbanity the sun came out and it remained dry with great visibility of the marvellous countryside for the rest of the day.

Our marshals ensured that we all kept to the course, well almost, and were on hand to supply the essential water, chocolate bars and vulcanising solutions.

There was much relief that we ALL finally returned to the zero-e office.

Our special thanks goes out to all those taking part who were not regular cyclist and who took part on often less than up to date machinery. Some riders travelled from as far as Manchester just to take part.

Our final rider to complete the course was Tom, He rode the entire 30 mile course on Wednesday 28th July, he had wanted to complete the course on the 18th but was a little un-prepared and as such he waited until his school holidays. Tom is 6 years old!, we think that this is a remarkable achievement.

We are currently well on our way to raising our targeted donation, but any further donations would be much appreciated.

Target £1500.00
 Raised So Far £1347.00
