

Planning success at Redcar

The team at **seven** are delighted to announce that Full Planning Permission has been granted for the proposed Vertical Pier at Redcar Seafront.

The international RIBA competition winning scheme that forms part of the Redcar Seafront regeneration in conjunction with the Environment Agency sea defence works, will

provide a focal point for the seafront and is designed to act as a catalyst for further regeneration. The new building will provide a cafe at ground floor level, a high level observation deck along with flexible workspaces for local artists, writers and creative industries.

Work is anticipated to commence on site in August 2011.
