

## Residential development obtains Planning Permission

The team at **seven** have successfully obtained Full Planning Permission for the construction of a new residential development at Victoria Road in Formby.

Approved in October 2010 following extensive public consultation on behalf of Formby Hall Investments, the proposals are to provide eight executive apartments with extensive communal garden areas, private balconies and dual aspect views. The proposals are designed to provide a contemporary response to development within this sensitive setting directly adjacent to the Formby Nature Reserve and Golf course.
